EXPERIENCE

Hamsaa — Tech Company/studio

Product Lead (Full-time) | MAR 2025 - PRESENT

Product Advisor | DEC 2022 - MAR 2025

Senior Product Designer (Full-time) | NOV 2021 - NOV 2022

Hamsaa is an organization alignment platform and venture studio powering products like Ubank, Ham-Gozar, and Hamsaa Enterprise-social-network.

- **Designed an automated solution** that streamlined workflows, cutting support overhead by 50% while enhancing UX.
- **Led end-to-end delivery & sprint planning** for 4 concurrent products, orchestrating front/backend technical workflows.
- **Bridged stakeholders & tech teams**, translating complex business requirements into scalable design architectures and backlogs.

Key Product Contributions:

- **Ubank (Saman Bank):** An affluent conversational banking platform for VIP clients. Led the design and workflow orchestration, converting 40% of offline VIP users to online within 3 months and increasing the NPS score from 4.3 to 4.7.
- **Ham-Gozar:** *Defined the product strategy, orchestrated the feature roadmap, and led the end-to-end discovery for a commercial complex management ecosystem (Admin, Tenant, Contractor apps), ensuring alignment with market demand.*
- **Hamsaa ESN:** Collaborated with the CEO to discover, validate, and refine organizational communication challenges and product strategy.

Football360 — Iran's Leading Football App (5M+ Users)

Senior Product Designer (Part-time) | NOV 2023 - FEB 2025

Senior Product Designer (Full-time) | NOV 2022 - NOV 2023

360 is Iran's leading football app, with over 5 million users and top-rated features, leading the end-to-end design process across web, Android, and iOS platforms. I built a complete design system, redesigned the CMS and Football

Fantasy game inside the app.

- Led a product redesign that **boosted users by 475%**.
- Redesigned the user onboarding process, **reducing drop-off rates by 40%**.
- Designed 'Sarzarb,' which became the 3rd most visited feature within 3 months, **reaching 20M+ monthly visits**.

Asroon — Metal Marketplace

Senior Product Designer | DEC 2020 – FEB 2022

Asroon (later on rebranded to Ahangar) is one-stop source for all metal needs, I was responsible for design outcomes, enhancing conversion-rates, hiring designers, onboarding new designers on teams, leading design sprints.

- Re-designing the whole internal flows by building an online & web-based CRM leading to a 20% decrease on order submitting.
- Re-designing the product-list-page (PLP) leading to **increase the conversion rate from 0.8% to 2%**.
- Contributing directly with CPO & CTO to build a sustainable and agile structure for product and tech team relationships.

UniPlato

Product Designer | MAR 2020 – AUG 2021

UniPlato, founded in 2019, is a CPaaS platform offering meetings, notes, calendars, chats, and more to enhance team and business communication. My role includes quantitative analysis, applying design-thinking, documenting decisions, participating in feedback sessions, and creating a scalable Material 2.0-based design system.

Purphachure

UI/UX Designer | FEB 2017 – JAN 2020

Purple Hachure was a design & creative studio in Tehran that designed and developed brands, products and marketing campaigns. We worked with multiple brands in health, communication, fintech and e-commerce such as Jibimo, Pipekala, Sharjbook, Paklean, Tinext and more.
